

There's a customs restriction for import reefer cargo to Dalian, China

There is a restriction concerning frozen meat and seafood products bound to Dalian, China. With your cargo planning in mind, we would like to provide you with a few options due to the recent challenges of cargo pickup after customs declaration for inbound frozen cargo.

1. Divert your reefer containers to Qingdao, Tianjin and other ports in China (please note that this option is subject to having the necessary import license for your cargo); or,
2. Return the reefer container to its origin port; or
3. We will reserve the right to make the necessary arrangements in case we do not receive any instructions from you.

Please note that for all options, all additional costs, risks and liabilities related to the storage or movement of the cargo after discharge will be for the account of the cargo owner. Therefore, we kindly ask you to provide us with a written confirmation of your preferred choice for taking delivery of the cargo at your earliest convenience to initiate the necessary arrangements.

We regret the inconvenience that these circumstances may cause and thank you for your understanding. Please know that you can get in touch with china@service.hlag.com if you should require additional information.

Best regards,
