Here's a schedule update for our FE9 service

If you're shipping with our **Far East Service (FE9)**, here's an update for your cargo planning. Our Eastbound (EB) rotation will be changing from Singapore, SG to Port Klang, MY starting with MV CMA CGM TROCADERO V. 0F6E1MA.

For your reference, we've outlined the new and previous rotation below:

Current (EB) Service rotation:

- Rotterdam, NL → Southampton, GB → Antwerp, BL → Le Havre, FR → **Singapore, SG** → Qingdao, CN → Shanghai, CN → Ningbo, CN → Yantian, CN

NEW (EB) Service rotation:

Rotterdam, NL → Southampton, GB → Antwerp, BL → Le Havre, FR → **Port Klang, MY** → Qingdao, CN → Shanghai, CN → Ningbo, CN → Yantian, CN

What else do you need to know?

With this change, there are a couple of modifications that might impact your cargo planning:

- Cargo already en route to Singapore will be transshipped there to continue its journey.
- Cargo gated-in full for current departures might be rebooked to alternative services if it cannot connect via Port Klang.

If you should have additional questions or comments concerning these changes, please reach out to our teams at **your preferred location**. They will assist you with your individual situation.
